PROFESSIONAL SUMMARY

Full Stack Software Engineer and Computer Science graduate with 3+ years of hands-on development through university, personal projects, and company-based work. Experienced in building web and mobile applications across frontend and backend using C#, ASP.NET Core, React, Next.js, PHP, Flutter, and SQL databases. Comfortable with APIs, authentication, admin dashboards, CRUD systems, payments, and responsive user experiences. Brings project management exposure, strong ownership, and the ability to work effectively in fast-moving remote teams.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, PHP, Dart, SQL, Python (basic), Java (basic)

Frontend: React, Next.js, Vite, Tailwind CSS, responsive UI

Backend: ASP.NET Core, .NET 8/9, REST APIs, Entity Framework Core, ASP.NET Identity, JWT auth, PHP, sessions/auth

Databases: SQL Server, SQL Server Express, MySQL/MariaDB, PostgreSQL, Supabase, Neon

Other: Flutter, Git/GitHub, Swagger, Agile/Scrum, SDLC documentation, Power BI, Excel

EXPERIENCE

Full Stack Developer | Company-based experience | 6 months

- Built and maintained full-stack features across frontend and backend systems in a professional team environment.
- Worked with APIs, database operations, debugging, and iterative feature delivery on real product tasks.
- Contributed to clean, maintainable code and day-to-day problem solving across application layers.

Project Management / Product & SDLC Intern | Intelligile | Tripoli, Lebanon | Jun 2024 - Sep 2024; Jun 2025 - Aug 2025

- Supported Agile sprint planning, backlog tracking, and coordination for software project work including LMS initiatives.
- Produced SDLC artifacts including Project Charter, SRS, SDS, and structured activity models for PMBOK-based processes.
- Translated stakeholder input into structured briefs, requirements, and system-oriented deliverables.

SELECTED PROJECTS

Interview Scheduler - ASP.NET Core, EF Core, SQL Server, React, Vite

- Built a hiring workflow platform with public candidate intake, ATS-style scoring, automatic interview creation, and admin dashboards.
- Implemented JWT authentication, rate limiting, file upload handling, CRUD modules, and SQL-backed business logic.

Serviqo Marketplace - ASP.NET Core 8, EF Core, SQL Server Express, React, TypeScript

- Built a multi-role service marketplace with customer, vendor, and admin flows, role-based access, and full CRUD APIs.
- Designed SQL-backed entities and features for services, categories, orders, reviews, filtering, sorting, and pagination.

Smart Inventory Hub - Next.js 16, TypeScript, Neon Postgres, Drizzle, Clerk

- Built an AI-assisted inventory platform with secure per-user asset management, analytics dashboard, and full CRUD workflows.

Geofencing System - Next.js, Flutter, OpenStreetMap, PostgreSQL

- Built an admin dashboard and mobile app for geofence assignment, user location updates, and automated enter/exit alerts.

EDUCATION

B.S. in Computer Science - Beirut Arab University, Tripoli | 2025

CERTIFICATIONS & ACHIEVEMENTS

CTF Finalist - Lebanese Universities Cybersecurity Competition (2025) | Ethical Hacking Foundation - Semicolon Academy | Data Analysis Bootcamp - Khwarizme x LASER | IC3 Digital Literacy Certification

LANGUAGES

Arabic: Native | English: Intermediate (B1-B2)
